PROFESSIONAL SUMMARY

Software Developer with hands-on experience in Python, Django, REST APIs, SQL, and React.js. Strong problem-solving skills with 500+ LeetCode and HackerRank DSA problems solved.

EDUCATION

Bachelor of Computer Applications (BCA) 2022 – 2025
Karnataka Law Society's BCA College, Udyoga Vidyanagar, Haliyal **CGPA: 8.64/10**

Pre-University Course (PUC) 2020 – 2022
Bangur Nagar Junior College, Dandeli **Percentage: 80%**

TECHNICAL SKILLS

Programming Languages: Python, JavaScript, SQL
Frameworks & Libraries: Django, DRF, React.js, REST APIs
Frontend: HTML5, CSS3, JavaScript, Responsive Web Design, DOM
Databases: PostgreSQL, MySQL, Firebase Firestore
Concepts: Data Structures & Algorithms, Object-Oriented Programming, DBMS, SQL, Database Normalization, Authentication, Authorization, Django ORM, Asynchronous Programming
Tools & DevOps: Git, GitHub, GitLab, Linux, Postman, VS Code, PyCharm, Render, Vercel, Netlify

EXPERIENCE

Trainee Software Engineer – MountBlue Technology Jul 2026 – Present

- Working as a Trainee Software Engineer with hands-on practice in software development, backend development, databases, APIs, and problem solving.
- Applying Python, Django, SQL, Git, and web development concepts through practical software engineering tasks.

Full-Stack Software Development Course – Pentagon Space Nov 2025 – Jun 2026

- Completed hands-on full-stack software development training using Python, Django, React.js, JavaScript, SQL, and REST APIs.
- Worked on backend development, database integration, responsive frontend development, Git-based development, Linux, and application deployment.

PROJECTS

LinkedIn Clone — Python, Django, PostgreSQL, JavaScript, HTML, CSS

- Developed a LinkedIn-inspired professional networking application using Django, PostgreSQL, JavaScript, HTML, and CSS.
- Implemented user authentication, profile management, profile information, images, professional experience, and user-specific authorization.
- Designed relational database models and integrated Django templates with backend functionality.
- Configured environment variables, migrations, static files, Git/GitLab, and deployment using Render.

AI Mock Interview Application — React.js, JavaScript, Firebase, Vapi LLM, Vercel

- Developed a voice-based mock interview application using React.js and JavaScript.
- Integrated Vapi LLM for real-time voice interaction and interview question generation.
- Used Firebase Firestore to store user information, interview sessions, and feedback.
- Deployed the application on Vercel and managed the project using GitHub.

IPL Data Analysis & Django Application — Python, Django, SQL, Matplotlib

- Built a Django application to process and analyze IPL match and ball-by-ball datasets.
- Imported 636 matches and 150,460 delivery records into Django database models using transactional database operations.
- Developed data-driven endpoints for match statistics, team wins, extra runs, and economical bowlers.

ACHIEVEMENTS & CERTIFICATIONS

- **LeetCode and HackerRank:** Solved 500+ Data Structures and Algorithms problems, demonstrating consistent problem-solving practice.
- **HackerRank SQL:** Solved 200+ SQL problems covering JOINs, subqueries, data manipulation, and advanced SQL concepts.
- **Claude Certification:** Completed Claude certification covering Claude, Claude Code, Claude Platform, APIs, models, agent loops, tool use, and MCP concepts.
